Urban Land Institute
Founded in 1936, ULI is an independent global nonprofit supported by members representing the entire spectrum of real estate development and land use disciplines.

The mission of the Urban Land Institute is to provide leadership in the responsible use of land and in creating and sustaining thriving communities worldwide.
Why belong?

ULI members have access to the worldwide ULI network.

What sets this network apart is its diverse mix of real estate and land use leaders and policy makers. There is no better organization for making connections, both local and global, that lead to business deals.

ULI members stay on top of their game by leveraging the high-quality, unbiased information ULI provides. Through applied research, publishing, and electronic media, ULI provides examples and case studies presenting best practices from around the globe. ULI has a culture of sharing both what works and what doesn’t, and innovative thinking on what's next for the real estate development and land use industry.

ULI facilitates opportunities for members to make a difference in their communities and on a global scale. The ULI Foundation’s sole mission is to encourage charitable giving among the Institute’s members and partners to support ULI programs and initiatives. With its enormous intellectual capital and extensive volunteer network, ULI empowers members to make a lasting impact for current generations and those to come.
As members of ULI,
we represent every profession in the real estate
development and land use industry.

What we share is a commitment to exchanging
ideas and experiences, to learning best practices
from each other, and to working together to create
thriving communities worldwide.

STEPHEN P. NAVARRO
PRESIDENT, THE FURMAN COMPANY
“Being a ULI member has been the single most important factor in the growth and the success of my company. The people that I’ve met, the many things I’ve learned, and the opportunity to serve and give back to the organization have truly changed my life and my business and given me a whole new vantage point of understanding the way the real estate world ticks.”
